

## COMING HOME... TO THE FATHER

Collectively, we all had a season of individual transformation brought upon the onset of quarantine and social distancing. All of us were given a chance to pay attention to what was happening not just around us, but mostly, inside of us.

As we slowly step out we invite you to look back and assess where you were, what changes happened and where you are at compared to six months ago. Our prayer is that we all come out BETTER, from all of this, and that we pay attention to the areas where God was pointing at us to look into. He doesn't waste anything!

### DURING QUARANTINE:

1. Something I struggled a lot with was:
2. I missed the most:
3. I was happy I didn't have to:
4. Something I lost:
5. Something I gained:
6. Something God showed me specifically:
7. Something that I will miss from the quarantine:

Thank you God for all the blessings you gave me during quarantine. Thank you for helping me through **(say #1 here)**. Thank you for showing me how much I enjoyed **(say #2 here)** and I don't ever want to take it/him/her for granted. I was so glad I didn't have to **(say #3 here)** please show me if this is something I can do without. Help me grieve my losses *or* thank you for removing... **(say #4 here)**. Thank you for giving me **(say #5 here)** and for the revelation of **(say #6 here)**. **Today I realize I am going to miss (say #7 here)**. God, please help me be able to have balance in my life, to not take for granted your blessings or your gift of living in the present. Please make me aware when I begin to neglect what matters the most. I love you and I thank you for never leaving me nor forsaking me. AMEN.
